DAMAGED BY FROST.—The crops

on the reservation of the Stony In-

dians, have been badly damaged by

the late frosts.

A NARROW ESCAPE.—An constable

McGinn was passing into the stall

to bring his horse, on Monday, the

animal kicked viciously at him, but

fortunately missed, otherwise we

would have been called upon to re-

spond a serious affair.

LOST HIS FINGER.—One of the

blacksmiths who engaged in coupling

cars at the C. P. R. yard, on Wed-

nesday afternoon, got his finger

pretty badly jammed. He was taken

to Dr. Lindsay's office, and had the

bruise extremely amputated at the

first joint. We understand he is

progressing favorably.

FINE STOCK.—Ten fine short-horn

bulls, and one splendid stall, ar-

rived via the C. P. R., on Sunday

morning, direct from England to

the Calgary Cattle Co. They were

a fine lot of animals, and seemed to

have stood the journey well. They

arrived Monday morning for Willow

Creek, the Company's headquarters.

MANOR.—The members of the

A. F. & A. M., resident at Calgary,

being desirous of organizing a lodge

this fall, if possible, request all

craftsmen interested in the move-

ment, to meet with them on Friday,

September 14th, at 7:30 p.m., sharp,

at the log shack of Geo. Murdoch,

just side of the Elbow, south side of

the lower trail.

RAILWAY MEN.—A number of

railway men came down from work

on the mountains, a few days ago,

expecting to get passes back to their

homes, but in an interview with Mr.

Holt, Engineer of the N. A. C. Com-

pany, were informed that no passes

would be granted till the work was

completed.

MYSTERY.—Messrs. Gordon

& McKay of the Meteorological Ob-

servatory, were in town last week,

and Calgary as a station for

taking observations, from which tele-

grams will be sent every day, report-

ing on the atmospheric pressure, the

temperature, velocity of wind, the

clouds, and all matters connected

with the weather. The instruments

will arrive in a short time, and will

be under the care of Mr. T. B. Ben-

den of the Calgary Herald.

"ANTHRACITE COAL.—The Winni-

peg Free Press of the 10th in-

stance says: "There are some excellent

specimens of anthracite coal on ex-

hibition at the office of Mr. A. W.

Ross. They were brought in from

the west by Mr. James Anderson,

who arrived on Friday night. He

obtained the specimens from a point

about eighty-five miles west of Cal-

gary, at Devil's Creek, and a little

over a mile from the graded track.

They were taken from the surface

and are very hard and heavy, and

have all the appearance of an excel-

lent quality of coal. Mr. Anderson

embraces coal in unlimited quan-

tities. The specimens brought in

have been pronounced good by com-

petent judges, and they will be thor-

oughly tested shortly. If the tests

result as anticipated, the proprietors

of the mine will at once set about

developing it. Mr. Anderson also

brings in a number of specimens

of gold and silver ore, which will also

be tested here.

OPENINGS.—There is now a good

opening here for a Housemaid and a

domestic. Who will be the first

on the ground?

POLICE HORSES.—A party of police

left yesterday morning for Macleod

to bring in a band of about 20 horses,

lately purchased from the Stewart

Ranch Company.

RESISTE LANGUAGE.—Yesterday

morning John Living, a Jew, laid a</
